José Hugo Meza Vázquez

JHM

AI & automation developer · Public data and legislative transparency

Mexico City, Mexico

jose2501106@hybridge.education · linkedin.com/in/josehugomeza-ai · github.com/jose2501106-IA · jose2501106-ia.github.io/en

SUMMARY

I built AgenteMX, an AI tool that brings legislative work closer to citizens: it explains how members of Mexico's Chamber of Deputies vote, with official data and source citations. I study AI Engineering and Industrial Engineering, and I automate daily operations for a distribution company.

PROJECTS

AgenteMX — AI agent for legislative transparency — FUNCTIONAL

Answers plain-language questions about how members of Mexico's Chamber of Deputies vote, with official data and source citations. It includes a party-discipline index and, as prototypes, analyses of consistency between bills and votes and of voting behavior during election periods.

DATA AND SOURCES: Roll-call votes from the 65th Legislature (SITL); bills from the Gaceta Parlamentaria, in prototype.

TECH: Claude API, SQLite, Pandas, BeautifulSoup, Streamlit — github.com/jose2501106-IA/agente-legislativo-mx

Neurona Artificial — An open course on how AI works under the hood — WORK IN PROGRESS

Interactive videos with a hands-on lab to understand how AI works, from a single neuron to agents that decide and act.

TECH: HTML, CSS, JavaScript, custom design system — jose2501106-ia.github.io/NeuronaArtificial

Audit pipeline — Distribution company · Mexico City — IN PRODUCTION

Automates the warehouse's daily operations audit. Now on version 7, running in production every day.

TECH: Python, Apps Script, Google Sheets — Private repository

EXPERIENCE

Independent AI & automation developer — For a distribution company — SEP 2026 – PRESENT

- I automate daily operations and I'm developing the company's first AI solutions and internal tools for orders and inventory.
- I maintain the daily audit pipeline in Python and Apps Script (v7, in production).

Warehouse manager — Same company — AUG – SEP 2026

- I moved up from administrative assistant to warehouse manager in three months.

Administrative assistant — Same company — MAY – JUL 2026

- I kept the administrative records and reports for daily operations.

AWARDS

1st place as a team · Futures Lab — Chilangatón 2026 · SECTEI and SEDECO, Mexico City — OCT 2026

- With the team La Chilangonería del futuro: a metropolitan mobility proposal for 2040, with a focus on caregiving and the urban periphery.
- My role: data analysis and research, supported by AI (Claude), with every figure reviewed by a person.

2nd place, Pollar track · 3rd place, Content track — Goya Hack 2026 · CriptoUNAM × UNAM School of Engineering — SEP 2026

- Two awards with Cuentas Claras: a credit ledger signed by both seller and customer and enforced by a Stellar smart contract.

EDUCATION

Hybridge Education — AI Engineering — Term 4 of 8

UVEG · Virtual University of the State of Guanajuato — Industrial Engineering — 38% complete

Universidad Anáhuac México Norte — AI & Data Science Seminar — Full scholarship · Santander 2026

Aspire Leaders Program — Global leadership program founded by Harvard faculty — Selected

Oracle Next Education — ONE AI For Business — In progress · Tech Builder phase

Lean Six Sigma Institute — Lean Management — In progress · endorsed by The Council for Six Sigma Certification

PUBLIC SPEAKING & LEADERSHIP

"Ricardo Flores Magón" Oratory Contest (2nd edition) — held at the Mexican Senate · outstanding participation — Feb 24, 2026

Oaxaca State Congress — "Benito Juárez García" National Oratory Contest (24th edition) · outstanding participation — Mar 27, 2026

Universidad Anáhuac México — Emerging Leaders Conference 2026 · participation — Sep 23–24, 2026

SKILLS

PROGRAMMING Python, JavaScript, TypeScript, SQL, Bash · AI & DATA Claude API, Claude Code, OpenAI, Pandas, NumPy, Streamlit · AUTOMATION Apps Script, Google Workspace, Advanced Excel, GitHub Actions · CLOUD & HARDWARE AWS, Docker, Linux, Arduino · PROCESS Lean Six Sigma, DMAIC · LANGUAGES Spanish · native; English · A2, improving (Bécalos English scholarship)
